

The Heartbeat of Access and Control

MYCOMB mobile application

The brand new MyComb mobile application will provide you seamless integration with our products allowing you to manage access to your organisation easily and efficiently from your phone. We have taken your safety to the next level with our all-new real-time mobile application. Users will receive push notifications giving them instant information on the entry and exit of people who enter the organisations' access points. Your security is our main priority, let your phone tell you who enters and when!
