

## The new Comb TAP-TAP keypad

# THE NEW COMB TAP-TAP KEYPAD

We have re-designed our TAP-TAP keypad enclosure with a new and improved black enclosure casing design.

- Black enclosure case
- Blue back-lit colour
- Comb Logo embedded on screw cover plate

## The new black TAP-TAP keypad enclosure

At Comb Communications, we have re-designed our TAP-TAP keypad with a new and improved black enclosure casing.

How to differentiate and know the TAP-TAP keypad is compatible to connect to a Comb intercom as opposed to a standard Centurion keypad:

- Black enclosure case
- Blue back-lit LED colour (Centurion keypad has a Red back-lit colour)
- Comb Logo embedded on screw cover plate as indicated below

### ***NEW SCREW COVER PLATE***

A hexagon Comb logo is embedded on the screw cover plate covering the mounting screws.

### ***OLD GREY TAP-TAP KEYPAD***

The old Comb Communications TAP-TAP keypad enclosure casing.
