The Heartbeat of Access and Control

A single comprehensive web based facilities management platform, that integrates with our bespoke hardware and software offerings (*Combware) along with a myriad 3rd party products tailored to suit every access managed eco-system, **Comb Portal** is undeniably the class leading facility management system. From secure log-in to informative dashboards and the ability to customise to your own requirements. The intuitive navigation allows you to drill down on any queries related to specific hardware with exception based reporting. Pull reports, invite users and update information with ease.

PORTAL FEATURES

Secure Login

Login with encrypted username and password and safely update user details and reset a password online.

Informative Dashboards

Dashboard with important information in a once glance display. Add/Remove widgets on the home page as per user requirement. Pin the most used functions to dashboard and drag and drop functionality on the dashboard.

MAINTENANCE

Maintain your organisation/complex with the concise set of options beneath. Related to the people and units involved through to the hardware they rely on.

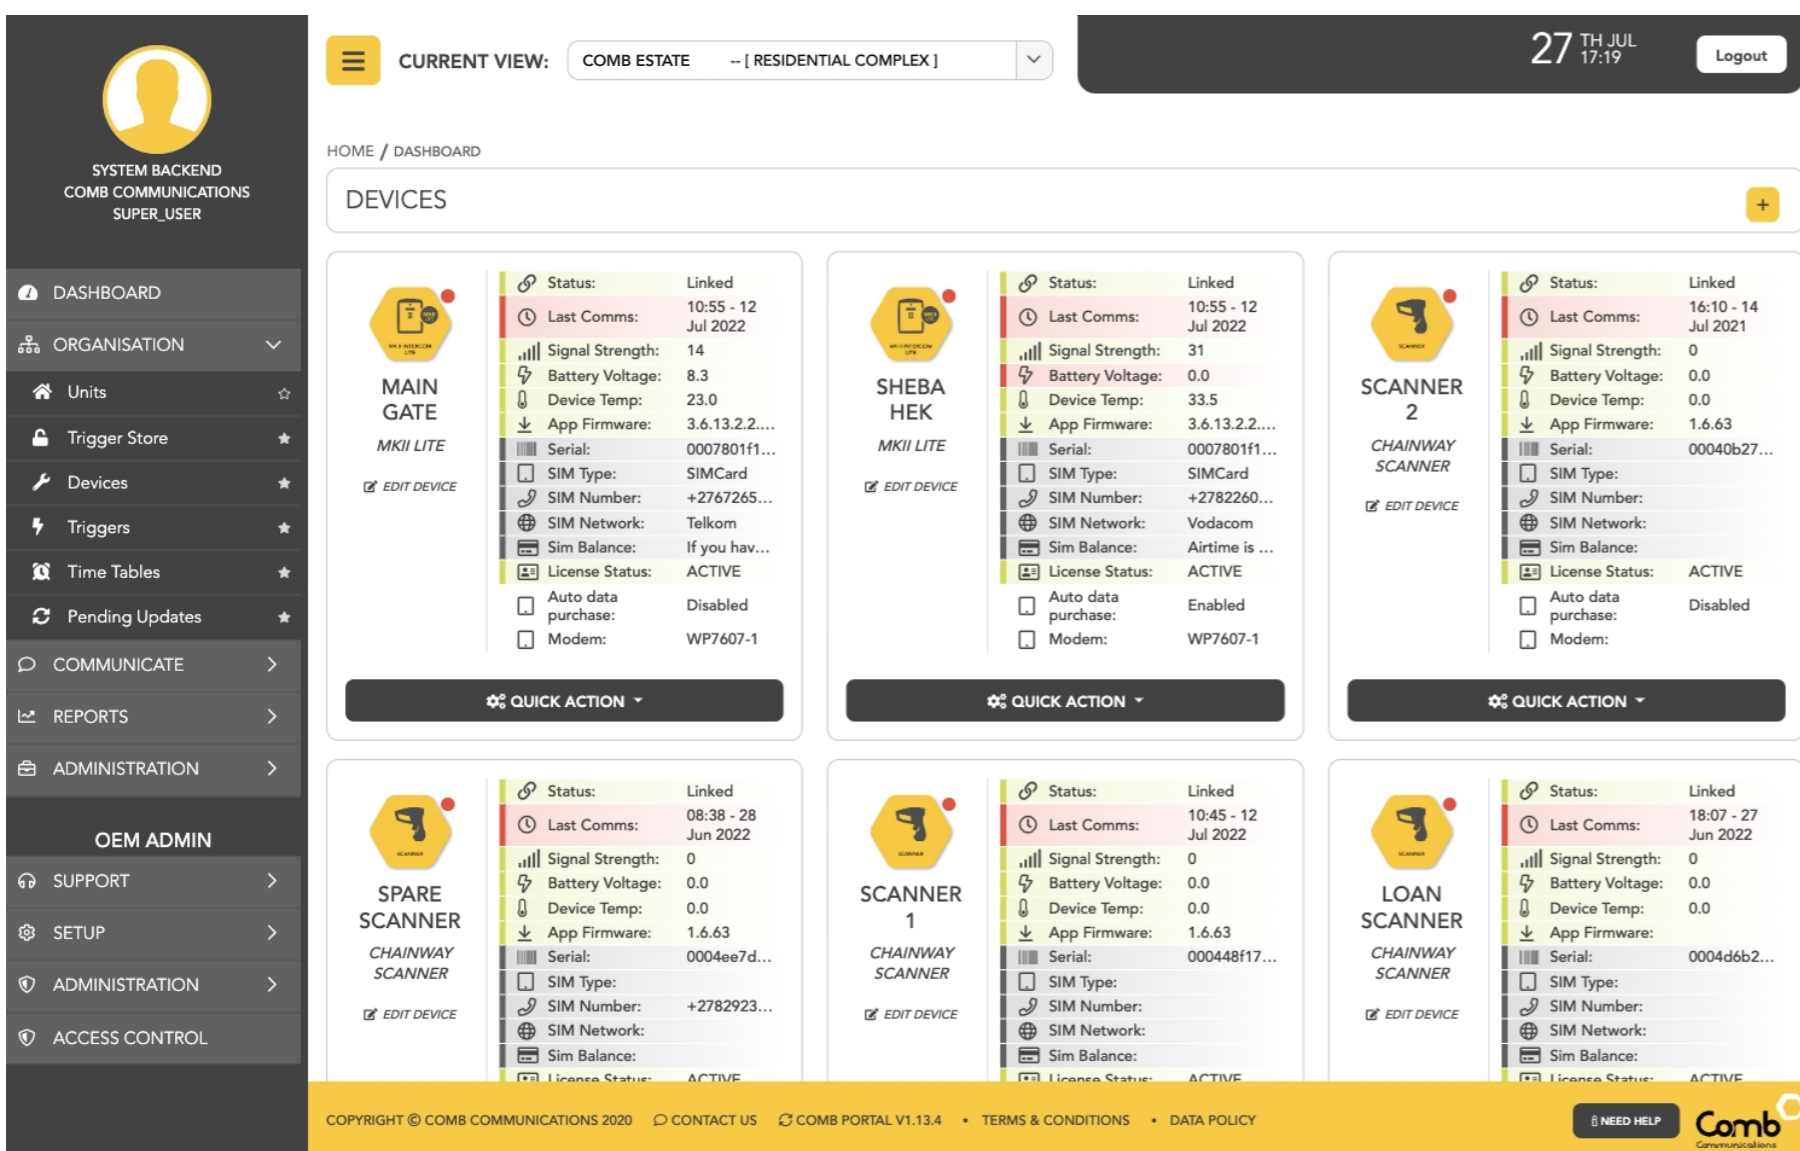

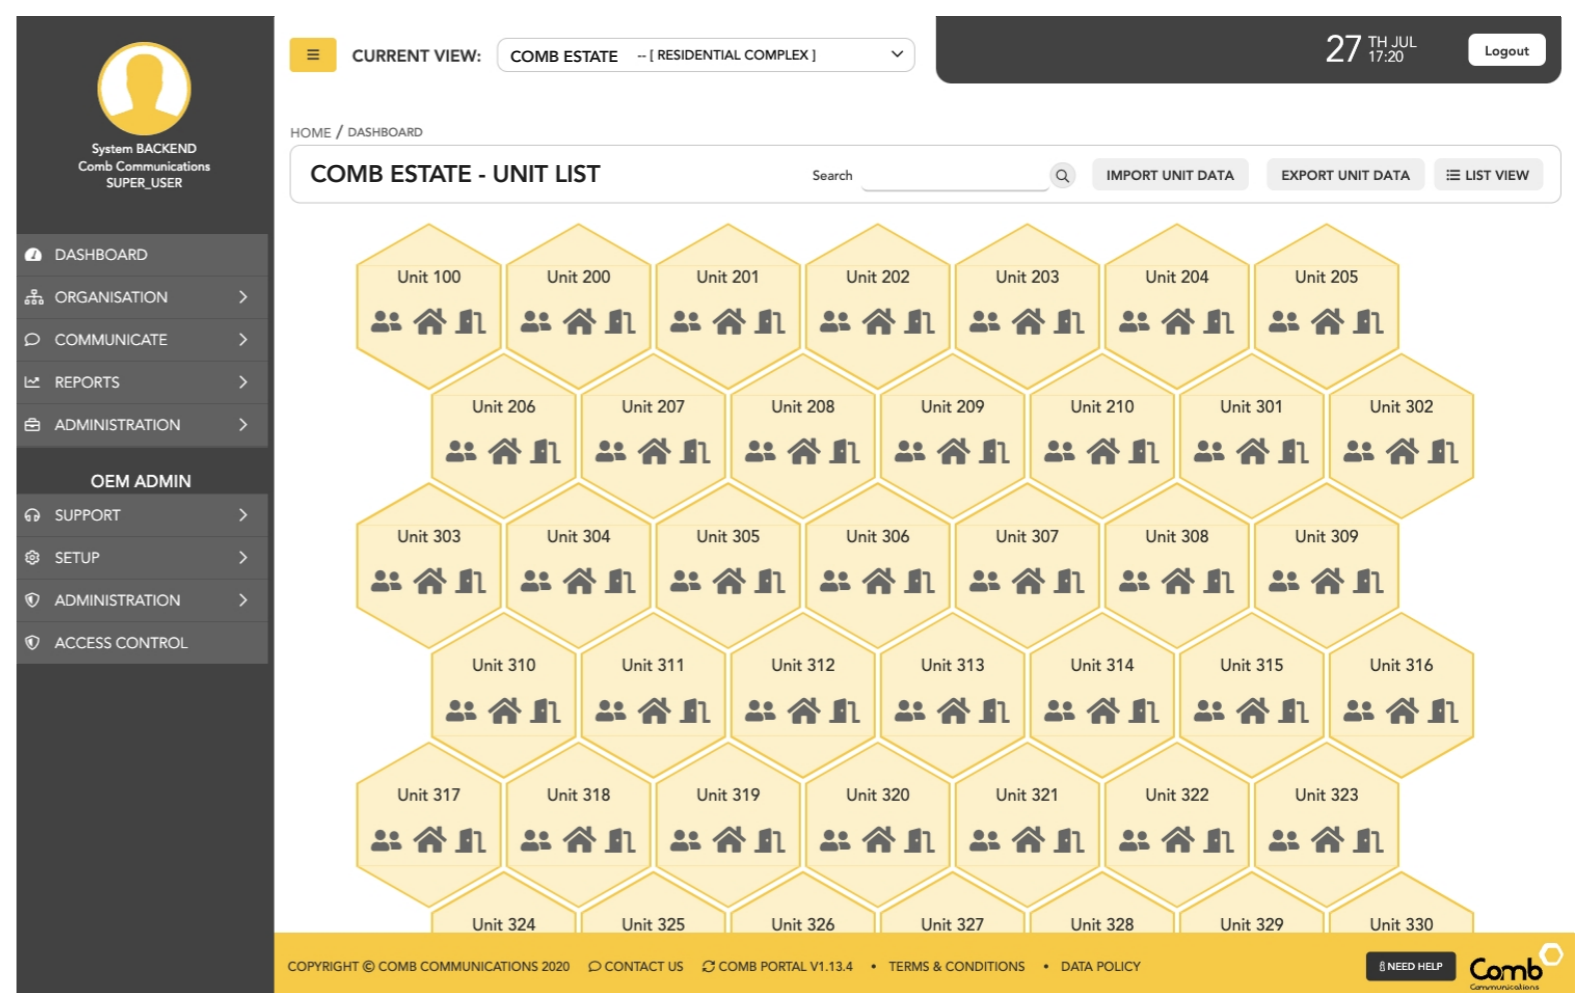

Units

View and manage (edit, update, load or remove) occupants within the UNITS system related to a specific unit.

Manage Access Devices

Once your remotes, RFID tags or similar devices have been purchased and are in the store, allocate them to an individual through this module. Re-allocation may also be done here.

ACCESS MANAGEMENT

Management of all hardware, infrastructure and integrated devices related to access within your organisation.

Devices

View and manage (edit, link, unlink, review statistics) of all the devices allocated in your system.

Triggers

Set up triggers for DTMF, Pins, TAP & TAPx from the trigger store.

Device Pending Updates

Any changes made to the organisation's data and requires synchronisation with a field device/hardware.

ORGANISATION DETAILS

Edit or update details pertaining to the organisation complex and the people involved.

Partners

Details of partners that provide a service to the complex.

User Maintenance

Create, update or remove a user

Partners

Provide access to the system as part of the organisation, i.e. inviting a new tenant/occupant in the complex.

Comb Store

Acquire or renew licenses, purchase Comb Credits or activate new hardware.

Pending Invitations

Create invitation for registration on the system.

REPORTS

A central point to pull reports on an array of specific requirements, including your billings, hardware usage and more.

Billing Summary

A report displaying total cost per unit for calls made, for the period selected. User input for monthly cost.

Visitor Access Report

A report displaying access type per owner/occupant per unit, for the period selected.

Billing Detail

A report displaying total cost per owner/occupant per unit for calls made, for the period selected. User input for monthly cost.

COMMUNICATE

A dedicated facility for outbound communication to persons involved with your organisation/complex.

Instant Messaging (Communicate or Messaging)

A single application for communicating via SMS, e-mail or mobile notifications to your audience or individuals. Create custom groups for sending specific communication. Bulk email and SMS sent from Portal.

Push Notifications

Your singular platform for effortlessly reaching your audience or individuals through push notifications.

The screenshot displays the user interface for a communication system. On the left is a dark sidebar with navigation options: DASHBOARD, ORGANISATION, COMMUNICATE, REPORTS, ADMINISTRATION, OEM ADMIN, SUPPORT, SETUP, ADMINISTRATION, and ACCESS CONTROL. The main content area shows the 'MESSAGE GROUPS' section with a table of groups and a 'NEW MESSAGES' section with tabs for SMS, EMAIL, and MOBILE APP. The table lists groups like 'EXTERNAL', 'ALL OWNERS/OCCUPANTS', 'ALL OWNERS', and 'ALL OCCUPANTS' with their descriptions, message types, and enabled status. The 'NEW MESSAGES' section shows no records found.

MESSAGE GROUP NAME	DESCRIPTION	MESSAGE TYPE	ENABLED		
EXTERNAL	EXTERNAL	EMAIL	TRUE	CONFIGURE GROUP	REMOVE GROUP
ALL OWNERS/OCCUPANTS	THIS IS A SPECIAL MESSAGE GROUP THAT INCLUDES ALL CURRENT OWNERS AND OCCUPANTS.	SPECIAL	TRUE		
ALL OWNERS	THIS IS A SPECIAL MESSAGE GROUP THAT INCLUDES ALL OWNERS.	SPECIAL	TRUE		
ALL OCCUPANTS	THIS IS A SPECIAL MESSAGE GROUP THAT INCLUDES ALL OCCUPANTS.	SPECIAL	TRUE		

ADMIN

Visitor Access Report

A report displaying access type per owner/occupant per unit, for the period selected.

ACCESS POINTS AND LANES

We have simplified our organisation setup process with a centralised approach to adding devices, lanes and authenticators in one place within "Access Points".

All-in-one organisation setup - with an interactive user guide to help get you started.

Easily Link, sync, reboot and SSH-connect directly to your device.

Conveniently monitor, manage and configure the organisation's devices.

Continuously keep your device's firmware updated at the click of a button.

The screenshot shows a web application interface for managing access points. On the left is a dark sidebar with a navigation menu including Dashboard, Organisation, Communicate, Reports, Administration, Widgets, OEM Admin, Support, Setup, and Access Control. The main content area is titled 'ACCESS POINTS' and shows details for 'MAIN ESTATE ENTRANCE'. It includes a form with fields for 'Access Point Name' (Main estate entrance), 'Latitude' (-25.87363793), and 'Longitude' (28.23439829). A map view shows the location on a street map with a pin. Below the map are sections for 'DEVICES' and 'LANES', both currently empty. The top right of the interface shows the date '21 ST SEP 13:05' and a 'Logout' button.
